Trade-marks Journal
Vol. 63 No. 3237

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

AXA ART

redefining / art insurance

Index Headings
AXA ART REDEFINING / ART INSURANCE

Image Description (Vienna)
- One line or one band
- Oblique lines or bands
- Straight lines or bands
- Squares
- One quadrilateral
- Quadrilaterals containing one or more other geometrical figures -- Note: Including quadrilaterals containing bent or straight lines (except 26.4.11).
- Quadrilaterals containing one or more letters
- Quadrilaterals with dark surfaces or parts of surfaces
- Letters presenting a special form of writing
- Letters overlapping
- Blue
- Red, pink, orange
- White, grey, silver

Colour Claim
Colour is claimed as a feature of the trademark. The square in which the word AXA appears is red. The slanted line on top of the word AXA is red. The word AXA is white. The words ART and REDEFINING and ART INSURANCE are blue. The line above the words REDEFINING and ART INSURANCE is red. The slanted bar between the words REDEFINING and ART INSURANCE is red.

SERVICES

Class 35

(1) Advertising for others in the field of insurance and the protection of artwork and collectibles; assistance to industrial and commercial businesses in the conduct of their affairs; business management in the field of insurance and the protection of artwork and collectibles; business administration in the field of insurance and the protection of artwork and collectibles; advice, information, and data related to business; computer file management; business consulting and information for consumers in the field of insurance and the protection of artwork and collectibles; collection and systematization of data in a central file.

Class 36

(2) Insurance in the field of the protection of artwork and collectibles; fundraising in the field of insurance and the protection of artwork and collectibles; real estate agency; real estate affairs; debt collection; individual insurance; life insurance; death insurance; general insurance; reinsurance; brokerage in the field of insurance and the protection of artwork and collectible objects; contingency funds; funds investment; financial estimates and expertise, consulting services related to financial investment, financial analysis; management of portfolios, financial investments; financing services; capital investment; debt collection; real estate estimates and appraisals; evaluation of real property, consulting related to real estate affairs.

GOODS

Electronic test and measurement instruments, namely, oscilloscopes and parts therefor; electronic instruments in the nature of signal generators, namely, analog and vector signal generators, waveform generators, function generators in the nature of electronic devices used to generate various types of repeating waveform signals over a wide range of frequencies, pulse generators, digital pattern generators, arbitrary waveform generators, noise generators in the nature of electronic devices that produce random signals, and signal generation devices synthesizing electronic signals, and synchronization modules for various types of signal generators, remote controls for the aforesaid goods; electronic test and measurement instruments in the nature of analyzers, namely, spectrum, vector, signal, network, power and power source, protocol, radio frequency, microwave, logic, modulation-domain, optical component, light wave component, optical modulation, time-interval, polarization, and photonic dispersion and loss analyzers; automatic test equipment for integrated circuits, circuit boards and electronic equipment, namely, flat panel display testers, system on a chip (SOC) testers, memory testers, parametric testers, automated optical inspection testers, and in-circuit testers; electronic and optical communications instruments, namely , light wave testers and light wave multimeters; electronic component of digital multi-meters for testing and measuring voltage in electrical products; measuring instrumentation and apparatus, namely, digitizers; test and measurement equipment, namely, electromagnetic interference receivers, radio frequency interference receivers, and electromagnetic compliance products, namely, electromagnetic interference receivers for testing electromagnetic compliance and making conductive emission measurements; polarization controller units used to change light from any polarized or unpolarized light source into any well-defined state of polarization; electronic test and measurement instruments, namely, electric meters, inductance meters, capacitance meters, resistance meters, impedance meters, acoustic testing meters, flow testing meters, vibration testing meters, ohmmeters, ammeters, voltmeters, microwave meters, electromagnetic interference meters , power meters, wavelength meters, frequency meters, and frequency counters, and remote controls for the aforesaid goods; electrical and electronic measuring and testing devices, namely, DC electronic load measurers and testers; electronic test and measurement instruments in the nature of testers, namely, cable, radio antennas, wireless communication signal antennas, microwave antennas, telephone signal antennas, voltage, amperage, telephone line, and continuity testers, and remote controls for the aforesaid goods; electronic test and measurement instruments, namely, handheld cable and antenna testers for radio antennas, wireless communication signal antennas, microwave antennas, telephone signal antennas, with optional spectrum analyzer,

network analyzer, and power meter and remote controls for the aforesaid goods; electronic testing equipment, namely, power meters for testing radio frequency and microwave signals; electronic and optical communications instruments and components, namely, communication link testers for testing connections within local area networks, fiber optic cables, digital cables, telephone cables, computer networks and connection to servers, and remote controls for the aforesaid goods; testing apparatus for testing circuit boards; electronic apparatus for testing electromagnetic properties and characteristics of industrial materials, namely testers for measuring how industrial materials interact with electromagnetic fields to calculate their related properties, namely electromagnetic permittivity, conductivity, resistance, impedance and electro-magnetic permeability; electronic test and measurement instruments, namely, voltmeters and source measure units; test and measurement equipment, namely, one box testers containing a signal source and a signal analyzer for testing microwave generators and transmitters, and wireless communication signal strength, signal quality and protocol compliance; electronic test and measurement instruments, namely, interferometers, electrical transducers, and vibration transducers; electronic test and measurement instruments, namely, nano-indenters for nano-mechanical testing of semiconductors, thin films, wafer applications, hard coatings and DLC films, composite materials, fibers, polymers, metals, ceramics, and biomaterials; component features of electronic testing, signaling, diagnostic and measurement systems and equipment used in signal generators, signal analyzers, arbitrary waveform generators, pulse generators, and one-box testers, namely, mobile cellular and wireless local area network (WLAN) testers and network analyzers; electronic component in the nature of software and hardware, namely, digital signal processor and its controlling algorithm, sold as integral components of waveform generators, for improving signal fidelity and signal breadth; optical encoders; data processing equipment, namely, optical couplers and acoustic couplers; signal amplifiers, namely wireless, cellular, satellite and optical signal amplifiers, and remote controls for the aforesaid signal amplifiers; electrical signal attenuators; electricity limiters; binary multipliers, voltage multipliers, radio, microwave, wireless communication, cellular, satellite acoustic and optical signal frequency multipliers, and remote controls for the aforesaid multipliers; testing apparatus for testing fiber optics; electric switches; optical switches; probes for testing integrated circuits, semiconductors, and telecommunication networks; electronic, opto-electronic, photonic and nano-scale test, signaling, imaging, and measurement apparatus and instruments, namely, amplifiers, attenuators, filters in the nature of signal processors that function to remove unwanted frequency components from the signal, to enhance wanted ones, or both, conditioners in the nature of devices used to prepare sensor output signals for processing, converters, mixers in the nature of devices for creating new frequencies from two or more signals applied to it, modulators in the nature of devices for varying one or more properties of a periodic waveform in order to carry a signal, demodulators, prescalers, dividers in the nature of devices for coupling a portion of the signal in a transmission line to a port enabling the portion signal to be used in another circuit, combiners in the nature of devices for combining the signals at a port into the signals already present in a transmission line, isolators in the nature of a non-reciprocal 2 port device that allows signals to pass in one direction only, circulators in the nature of a non-reciprocal multi-port device in which a signal entering any port is transmitted only to the next port in rotation, integrated diode limiters, switches and routers for performing signal generation, signal processing, signal amplification, signal conversion, and signal control; lasers for measuring purposes and accessories therefor, namely, monolithic laser combiners, laser heads, beam splitters, beam benders, beam translators, retro reflectors, adjustable mounts, plane mirrors, plane mirror converters, plane mirror reflectors, and turning mirrors; lasers not for medical use, namely for use in spectroscopy, imaging, alignment, optical measurement, optical component testing and fiber optic communications; microscopes; microscopes, namely, atomic force microscopes; microscopes, namely, scanning electron microscopes; recording apparatus for recording traffic on telecommunications networks,

namely for recording data usage and data speed and remote controls for the aforesaid recording apparatus; portable electronic recorder for measuring and recording multiple voltage, current and thermocouple readings from various transducers; electric sensors; industrial calibration sensors; optical sensors; timing sensors; ultrasonic sensors; surface acoustic wave sensors; sensors for measuring air pressure, temperature, and humidity; sensors for monitoring the temperature of an object being measured; transmitters of electronic signals; electronic and optical communications instruments and components, namely, optical transmitters and electro-optical transmitters; wireless signal transmitters and receivers namely analog, vector, radio frequency, digital video and microwave signal generators and signal receivers; Wireless transmitters and receivers for generating, receiving and analyzing signals for testing connections within telecommunications networks, local area networks, computer networks and connection to servers; receivers of electronic signals; electronic and optical communications instruments and components, namely, optical and opto-electrical receivers; computer hardware; computer peripherals, namely cables and USB plugs to permit computers to be connected to scientific and measurement instruments; computer operating system software programs for non-medical scientific instruments and for electronic test, signaling, and measurement instruments and equipment; computer software used to calibrate and configure electronic testing, signaling and measuring equipment used to test and measure voltage, radio waves, microwaves, radio and wireless communication signals, acoustic waves, cellular signals, satellite and optical signals; Computer software used in association with electronic testing, signaling and measuring equipment for the purposes of collecting, analyzing, storing and managing data obtained from testing and measuring voltage, radio waves, microwaves, radio and wireless communication signals, acoustic waves, cellular signals, satellite and optical signals; Computer software used in association with electronic testing equipment for the purposes of collecting, analyzing, storing and managing data obtained from testing radio frequency and microwave circuits, integrated circuits, circuit boards, signal-processing circuits, semi-conductor circuits, signal-processing circuits, electro-thermal and electromagnetic circuits; Electronic design automation (EDA) software for computer aided design of electronic systems, namely radio frequency and microwave circuits, integrated circuits, circuit boards, signal-processing circuits, semi-conductor circuits, signal-processing circuits, electro-thermal and electromagnetic circuits and used to simulate and test the speed and performance of said circuits; computers; power supplies; power supplies and power systems used to power and test the operation of electronic equipment and devices under test by providing multiple power levels to the electronic equipment; programmable power supplies and power systems for simulating various operating conditions of electronic equipment

SERVICES

Retail services, catalog services, and online retail services featuring laboratory equipment for scientific research, opto-electronic, photonic, and nano-scale testing, signal measuring and imaging instruments, electronic and optical communications instruments, telecommunication and communication systems hardware and software and parts thereof; retail store and catalog sales services, available through mail order, phone-in orders and electronic communications networks, featuring semiconductors, computer hardware, computer software and electronic and optical components in the fields of scientific research, opto-electronic, photonic, nano-scale test and signal measurement instruments and equipment, and electronic test and measurement equipment; maintenance, repair and installation of laboratory equipment for scientific research; maintenance, repair and installation of opto-electronic, photonic, and nano-scale testing, signaling, imaging and measuring instruments and equipment; maintenance, repair and installation of electronic signal testing equipment; maintenance, repair and installation of electronic test and measurement instruments, electronic and optical communications instruments, and testing equipment for integrated circuits, circuit boards; repair and refurbishing of laboratory equipment for scientific research; repair and refurbishing of opto-electronic, photonic, and nano-scale testing, signaling, imaging and measuring instruments and equipment; repair and refurbishing of electronic signal testing equipment; repair and refurbishing of electronic test and measurement instruments, electronic and optical communications instruments, and testing equipment for integrated circuits, circuit boards; maintenance and repair of computer hardware; design and development of computer software; computer programming services; troubleshooting and maintenance of computer software; electrical engineering design services; testing, analysis and evaluation of materials; calibration of laboratory equipment for scientific research; calibration of electronic equipment, namely electronic test and measurement equipment; calibration of optical communications instruments, and testing equipment for integrated circuits, circuit boards and electronic equipment; calibration of electronic equipment, namely, opto-electronic, photonic and nano-scale test and signal measurement instruments and equipment; calibration of telecommunication and communication systems hardware and software for testing and measuring the performance of communications and telecommunication networks; technical support services in the form of providing information, diagnostic services and consultation on the design, installation and operation of computer hardware, computer software, laboratory equipment for scientific research, opto-electronic, photonic and nano-scale test and signal measurement instruments and equipment, electronic test and measurement equipment, telecommunication and communication systems hardware and software, and providing an internet website related thereto; computer services, namely, operating a website allowing users to participate in discussions, get feedback from others, and obtain information, all in the field of news, design, operation, performance and reviews related to electronic test and measurement equipment, and signal measurement instruments and equipment; providing a website that gives computer users the ability to generate and share software script and plug-ins and to share software and data with other users

CLAIMS

Priority Filing Date: UNITED STATES OF AMERICA October 21, 2014, Application No: 86429860 in association with the same kind of goods. Proposed Use in CANADA on goods and on services

YOU SAY IT. WE BUILD IT.

SERVICES

(1) Advertisement for others on the Internet; Advertisement for others via mobile phone networks; Advertising and marketing consultancy; Advertising and marketing services for others provided by means of indirect methods of marketing communications, namely, social media, search engine marketing, public opinion survey, internet marketing, mobile marketing, blogging; Advertising, promotion and marketing services in the nature of e-mail blast campaigns for others; Business monitoring services, namely, tracking web sites of others to provide details about user click traffic or visits to the web site; Business reputation management and improvement services; Consulting services in the field of internet marketing; Consulting services in the field of search engine optimization; Marketing consulting; Marketing services, namely, conducting consumer tracking behavior research and consumer trend analysis for others; Providing informational web pages designed to generate sales traffic via hyperlinks to other web sites; Pay per click (PPC) advertising management services; Pay per click advertising for others; Promoting the goods and services of others by providing hypertext links to the web sites of others; Promoting, advertising and marketing for others on-line web sites of others; Guerrilla marketing services for others namely advertising done exclusively on the streets, shopping centers, parks and beaches with maximum people access; Providing demand creation namely scalable and repeatable business models to help get, keep and grow customer; Providing lead generation activities namely inquiry into consumer interest in products or services of a business via the Internet, through personal referrals, through telephone calls either by the company or telemarketers, through advertisements and events; Providing marketing consulting in the field of social media; Search engine optimization.

(2) Bill payment services provided through a website; Electronic payment services involving electronic processing and subsequent transmission of bill payment data; Financial transaction services, namely, providing secure commercial transactions and payments using a mobile device namely, a mobile phone or a tablet at a point of sale; Merchant services, namely, payment transaction processing services.

(3) E-mail forwarding services; Providing e-mail services; Secure e-mail services.

(4) Computer services, namely, filtering of unwanted e-mails; Computer website design; Consultancy with regard to webpage design; Designing, creating, maintaining and hosting online retail and electronic commerce websites for others; Developing and hosting a server on a global computer network; Domain name search services, namely, conducting online computerized searches for the availability of domain names ; Electronic storage of documents and archived e-mails; Homepage and webpage design; Providing a website featuring on-line non-downloadable software tools for image editing; Providing a website that gives users the ability to create customized web pages featuring user-defined information; Providing a website that gives users the ability to create customized web pages featuring user-defined profiles; Tracking and reporting of online website performance to determine the technological effectiveness of the websites for non-business purposes; Web publishing, namely, creating a website and uploading it onto an Internet server; Website design and development for others; Website design consultancy.

(5) Computer services, namely, filtering of unwanted e-mails; Computer website design; Consultancy with regard to webpage design; Designing, creating, maintaining and hosting online retail and electronic commerce websites for others; Domain name search services, namely, conducting online computerized searches for the availability of domain names ; Electronic storage of documents and archived e-mails; Homepage and webpage design; Providing a website featuring on-line non-downloadable software tools for image editing; Providing a website that gives users the ability to create customized web pages featuring user-defined information; Providing a website that gives users the ability to create customized web pages featuring user-defined profiles; Tracking and reporting of online website performance to determine the technological effectiveness of the websites for non-business purposes; Web publishing, namely, creating a website and uploading it onto an Internet server; Website design and development for others; Website design consultancy.

(6) Computer security services in the nature of providing an internet trust center, namely, computer security assurance and administration of digital keys and digital certificates; Computer security services in the nature of providing authentication, issuance, validation and revocation of digital certificates; Domain name registration services; Identification verification services, namely, providing authentication of personal identification information via secure storage and transmitting such information via the Internet; Monitoring of computer systems for security purposes; Providing user authentication services in e-commerce transactions.

CLAIMS

Used in CANADA since at least as early as September 18, 2013 on services (1), (4). Priority Filing Date: UNITED STATES OF AMERICA July 08, 2014, Application No: 86331337 in association with the same kind of services. Used in UNITED STATES OF AMERICA on services (1), (4). Registered in or for UNITED STATES OF AMERICA on August 18, 2015 under No. 4,796,567 on services (1), (4). Proposed Use in CANADA on services (2), (3), (5), (6)

GOODS

(1) Strollers, baby strollers, baby carriages for sports use, baby carriages and prams, three-wheeled baby carriages and prams for sports use, fitted for and incorporating children's seats ; three-wheeled baby carriages and prams for sports use, fitted for and incorporating children's seats and shopping bags; parts and fittings for the aforementioned goods, namely wheels, inner tubes, undercarriages, seats and cradles; safety seats for children for vehicles, car seats for children; accessories specially adapted for strollers, baby strollers, baby carriages for sports use, baby carriages, prams, namely seats, stroller seats, sibling seats, extra seats, twin seat solutions, twin seat adaptors, carry cots for babies, canopies, hoods, sun shades, sun sails, nettings, insect nets, mosquito nets, covers for baby carriages, fitted perambulator covers, rain covers, insulation covers, safety belts for baby carriages, harnesses for baby carriages, seat rails for baby carriages, stroller liners for babies, head-rests for vehicle seats of sport strollers, padded cushions, hand muffs for carriages, baskets for baby carriages, hooks for baby carriages, extenders for baby carriages, bottle holders as structural parts of strollers, cup holders as structural parts of strollers, phone holders for baby carriages, smart phone and tablet holders for baby carriages, GPS unit holders for baby carriages, music player holder for baby carriages, wheeled boards, sibling boards, safety lights for baby carriages, electric assistance motor for baby carriages; accessories for children's safety seats for vehicles, namely car seat carriers, car seat adaptors, seat covers for vehicles, car seat liners; car back seat activity toy, interior equipment for cars, namely car back seat organizer, car back seat protective mat, car back seat surveillance mirrors; safety belts for vehicle seats for pregnant women.

(2) Wheeled bags for transporting baby strollers; shopping bags made of textile; diaper bags; changing bags for babies; tote bags; car seat bags; stroller bags; travel bags; parts and fittings for the aforementioned goods; accessories specially adapted for wheeled shopping bags made of textile and wheeled shopping bags for transporting baby strollers, namely, umbrellas, parasols, reusable shopping bags; accessories specially adapted for strollers, baby strollers, baby carriages for sports use, baby carriages, prams namely bags, covers, umbrellas, parasols and wheeled bags for transporting baby strollers; carry cots for babies; soft bags made of textiles for carrying babies, semi soft bags with handles made of textiles for carrying babies; baby carriers worn on the body, pouch baby carriers, wrap baby carriers, slings for carrying infants, sling bags for carrying infants, ring sling baby carriers, pouch sling baby carriers, Mei-Tai baby carriers, soft structured baby carriers, front facing baby carriers, backpacks for carrying babies, hip carriers for babies; accessories adapted for baby carriers worn on the body namely covers, rain protection cover, wind protection covers, storm covers, sun shades, transportation bags, biting rings, bibs for baby carriers ; harnesses and belts for baby carriages and strollers, car seats, high chairs and booster seats; sheepskin linings.

(3) Furniture namely chairs, high chairs, beds, portable beds, travel beds, infant beds, sofa beds, wooden beds, infant cradles, bouncing cradles, bassinets, cribs, cots, Moses beds, baby bouncers, changing tables, chest of drawers, drawers, dressers, dressing table, desks, playpens, cupboards, storage and organization systems comprising shelves, foot stools/step stools, portable child seats, baby bathtubs, baby changing tables, baby bouncers seats, travel beds with integrated changing top, dressers with integrated changing top; children's multi-functional furniture unit comprising a bassinet that may be converted into a crib, a bed, two chairs, a sofa; children's multi-functional furniture unit comprising a changing table for a baby that may be converted into a play table, a desk , an audio-visual stand, bookshelf desk; children's multifunctional furniture unit comprising a bassinet that may be converted into a changing table, a play table; children's multifunctional furniture unit comprising a crib that may be converted into a sofa, children's bed, a changing table stand, a bassinet stand; accessories specially adapted for the aforementioned goods, namely furniture covers, rails and straps, back rests, seat inserts, seat and back cushions for chairs, back supports for child seats, wall rails made of wood for hanging up portable child seats, bed mattresses, spring mattresses, pillows, cushions, bumper cushions, sleeping bags for babies, sleeping bags incorporating a pillow for babies, carrying cases for child seats, bed bases, bed frames, headboards, bed rails, guard rails, cushions for changing diapers on children, baby changing mats, baby changing platforms, portable baby bath seats for use in bath tubs, fitted covers for high chairs, booster seats and fitted covers for booster seats; pillows used for cradling, supporting, propping and feeding babies not for medical and therapeutic purposes, crib rail, fitted crib rail covers, crib bumpers, mats for playpens, cupboards, baskets and clothes rods, sold as a unit; parts and fittings for the aforementioned goods, namely floor legs for seats, chair leg extenders, chair leg adapters, trays for highchair, table trays, table protection mats.

(4) Canopies for beds, cribs and bassinets; baby bedding; baby bundle bags; blankets; crib bumpers; fitted crib sheets; crib skirts; baby bouncer covers; diaper changing pad covers not of paper; bathroom textiles, namely bath towels and bath sheets; bedroom textiles namely pillow cases for pillows, bed sheets, blankets, cushion covers, bedspreads, duvet and bed linen; mosquito nets, mosquito nets for beds and baby strollers; bed tents; sunshades of textiles; seat padding namely seat inserts, terrycloth seat inserts, seat paddings for stroller seats, seat paddings for bouncers; baby seat rail covers made of textile; sleeping bags.

STORYPILOT

GOODS

(1) computer software for mobile devices and computer devices for use in collecting, mapping, analyzing, and evaluating data and other information, namely, research, opinions, suggestions, comments and performance metrics, in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products; computer software for mobile devices and computer devices that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; computer software for mobile devices and computer devices featuring technology that allows users to enter, access, and synthesize information and generate reports for use in consulting with executives and businesses; computer software for mobile devices and computer devices featuring technology that allows users to monitor trends and innovations and learn to innovate; downloadable electronic publications, namely, reports , newsletters, brochures, and articles in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products

(2) publications and printed materials, namely, reports, newsletters, brochures, and articles in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products

SERVICES

(1) business marketing and consulting services in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products; providing information in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products; providing business monitoring services, namely, measuring the media coverage of films, television, individuals, businesses, corporations, governmental entities, and consumer products for market research and media analysis purposes

(2) educational and entertainment services, namely, conducting classes, speeches, seminars, lectures, and workshops in the field of media impact on films, television, individuals, businesses, corporations, governmental entities, and consumer products

- Black
- Blue
- Yellow, gold
- Red, pink, orange

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of the word XFLAG in white with black and gray shading, written across a shield featuring navy blue and black in a starburst design. The shield is outlined in white, ocher and black. Two ocher lions outlined in black appear at the top of the shield separated by a white finial with a circle with cross symbol, which are outlined in yellow and black. A red flag featuring three white stars (outlined in black) and a white stripe above the stars is draped across the lower portion of the shield.

GOODS

Class 07
Compressors for motor vehicles; motor and engine parts other than for land vehicles, namely heat exchangers; pumps and fluid pumps, namely gas pumps, self-regulating fuel pumps, centrifugal pumps, pumps as parts of machines and motors and engines; turbopumps and valves for fluids, hydrazine thrusters, bipropellant thrusters, power-augmented catalytic thrusters, ionic propulsors, electric propulsors, plasma propulsors and arcjet thrusters, namely rocket and airplane thrusters; transmission and propulsion couplings and components, excluding those for land vehicles, motors and engines all kinds for mobile and stationary installations, with the exception of motors and engines for land vehicles, namely gas turbines, thermal motors and engines, electrothermal engines, reactive engines, nuclear power engines, combined propulsion engines, rocket propulsion engines; plasma sources, namely machines for applying coatings and for welding such as metallizing machinery, welding robots; ejection assemblies for aircraft engines, namely valves, thrust reversers; nacelles and thrust reversers for airplane engines; constituent parts for these machines, namely constituent parts of motors for airplanes and rockets, airplane and rocket thrusters, pumps, namely gas pumps, self-regulating fuel pumps, centrifugal pumps, pumps as pieces of machines and motors, namely nozzles and thrust reversers, nacelles and thrust reversers for airplanes and rockets.

SERVICES

Class 35

(1) Assistance in the management and operation of industrial and commercial businesses possessing aircraft fleets; consulting services related to commercial management of an engine fleet , systems, equipment, and parts for aircraft; consulting services related to administrative and commercial management of repairs, overhauls, maintenance, standardization, servicing of engines and motors, systems, equipment and parts for aircraft; consulting services related to the determination and choice of tools in the field of the repair, overhaul, maintenance, standardization, servicing of engines, systems, equipment and parts for aircraft; administrative and commercial management of replacement materials for users of aircraft engines, systems, equipment, and parts; compilation and statistical study of data related to the management of the maintenance of an aircraft engine fleet; collection of data in a central file; management and compilation of databases; analysis, collection, systematization, management, processing, and storage of data; operation of commercial data, namely selection, sorting, and promotion of data, sound, and still and animated images in the field of the repair, overhaul, maintenance, standardization, servicing of engines, systems, equipment, and parts for aircraft; operation of commercial data banks in the field of the repair, overhaul, maintenance, standardization, servicing of engines, systems, equipment, and parts for aircraft; provision services, namely establishment of statistical data, namely compilation of statistics.

Class 37

(2) Repair, maintenance, servicing, rebuilding of engines, nacelles, inverters, ejection assemblies for aircraft; repair of electric and electronic apparatus, instruments, systems, material and equipment used in the field of aeronautics; assistance by all means of computers and telecommunications, namely technical assistance by means of a telephone line and by means of an Internet site accessible 7 days a week and 24 hours a day related to the reconditioning and standard exchange of engines and engine units used in the field of aeronautics. .

Class 42

(3) Technical consulting in the field of aeronautics (engineering work); operational engineering services for airlines; technical consulting services related to methodologies used in the context of the repair, overhaul, maintenance, standardization, maintenance of motors and engines, systems, equipment, and parts for aircraft; machine testing; materials testing; inspection and monitoring services for engines, systems, equipment, and parts for aircraft; acquisition and pulling of aircraft flight data; analysis, expertise, and processing services for the acquisition of data recorded on running engines and motors, systems, equipment, and parts for aircraft; development and design of computer software and computer programming.

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of the words 'BOB'S SLEEP CENTER', where the word 'BOB'S' appears in large, red, stylized lettering with the top half of a man popping out of the 'O'. The man has brown eyes, a brown beard and is wearing yellow pajamas and a yellow, blue and red hat. His hands are next to one side of his head, which is on a white pillow. The words 'SLEEP CENTER' appear below in smaller, dark blue lettering and are on a white background. Gray in the mark represents background, shading and/or transparent.

GOODS

Furniture, namely bedroom furniture, mattresses and mattress foundations.

SERVICES

Retail discount store services featuring furniture, mattresses and mattress foundations; on-line retail discount store services featuring furniture, mattresses and mattress foundations.

GOODS

(1) Casing running tools with internal gripping for handling tubular goods, namely drill pipe, casing strings and liner strings for wells, namely oil and gas wells

(2) Casing running tools with external gripping for handling tubular goods, namely drill pipe, casing strings and liner strings for wells, namely oil and gas wells

(3) Mud saver valves, to control or minimize spilling drilling mud for use with casing running tools with external griping.

(4) Mud saver valves, to control or minimize spilling drilling mud, for use with casing running tools with internal griping.

(5) Inner string cement tools, to deliver cement during well completion, for use with casing running tools.

(6) Articulating compensator tools for handling tubular goods namely casing running tools, both

(7) Radial piston crimping tools, and radial tubular forming tools, hydraulically driver, load controlled crimping tools used to apply radial load in crimping and swaging operations.

(8) Torque rings, including multi lobe torque rings, for use in making connections of tubular goods namely connections for drilling wells

SERVICES

(1) Design, manufacture and sale of specialty oilfield tools, products and equipment, namely, casing running tools, valves, inner string cement tools, articulating compensator tools, radial piston crimping tools, torque rings, and drilling well connectors for the gas and oil industry

(2) Manufacture and fabrication of oilfield products and equipment, namely, casing running tools, valves, inner string cement tools, articulating compensator tools, radial piston crimping tools, torque rings, and drilling well connectors

(3) Manufacture and fabrication of products, namely, casing running tools, valves, inner string cement tools, articulating compensator tools, radial piston crimping tools, torque rings, and drilling well connectors made through a process of applying fluid pressure to pipe sections to form ribs and other shapes

(4) Training and maintenance programs for equipment and tools, namely training to oil field rig crews to use centralizers and torque rings.

(5) Rig calibration and computer torque monitoring.

(6) Assistance and training in computer torque monitoring services

(7) Computer torque monitoring.

(8) Oil field services relating to casing running and casing connection, namely training for operation of equipment; maintenance programs for equipment, namely, casing running tools, valves, inner string cement tools, articulating compensator tools, radial piston crimping tools, torque rings, and drilling well connectors; rental of equipment, namely, casing running tools, valves, inner string cement tools, articulating compensator tools, radial piston crimping tools, torque rings, and drilling well connectors
